"Compete hard. Build community. Show up every day."

ABOUT ME

I'm Nexify, a Portuguese Fortnite player and social media manager living in the Netherlands. I've been active in esports since 2020, playing Controller on PC and running social media, Discord communities and announcements for growing orgs. I also build my own Discord bots and stream overlays, so branding, community and tech come from one person. After a break from Fortnite I'm fully back, training my mechanics, game sense and consistency every day.

HIGHLIGHTS

- Founded **Novaris Esports** across Portugal and Sweden and grew its Discord community to 1,500+ members.
- Ran social media for four esports orgs (Vertex, NovaRise, Aether, Haze): roster reveals, match coverage and org updates.
- Competed in Fortnite scrims, Cash Cups and online events from 2020 onwards.
- Build custom Discord bots (tickets, leveling, giveaways, settings menus) and OBS stream packs.
